ACT Score Tracking Sheet
MONITOR YOUR PROGRESS
SECTION BY SECTION
Each of the four sections of the ACT is scored separately. As on the real ACT, a raw score is generated first, and then a scaled score is produced on the $1-36$ scale. The scaling process ensures that the final score is comparable across other test forms.

Your Raw Score is calculated by adding 1 point for each question answered correctly.
Your Scaled Score is determined by using the chart on page three.
Your Composite Score is the average of your four scaled scores. Add your individual scores and divide by 4, rounding to the nearest whole number.
